

Kingston Technology KSM56T46BS8KM-16HA memoria 16 GB 1 x 16 GB DDR5 Data Integrity Check (verifica integrità dati)

Marchio : Kingston Technology

Codice prodotto: KSM56T46BS8KM-16HA

Nome del prodotto : KSM56T46BS8KM-16HA

Kingston Technology KSM56T46BS8KM-16HA. Componente per: Server, RAM installata: 16 GB, Configurazione della memoria (moduli x dimensione): 1 x 16 GB, Tipo di RAM: DDR5, Fattore di forma memoria: 262-pin SO-DIMM, Latenza CAS: 46, Data Integrity Check (verifica integrità dati), Colore del prodotto: Nero, Verde

| Caratteristiche                                      |                           | Caratteristiche                                    |              |
|------------------------------------------------------|---------------------------|----------------------------------------------------|--------------|
| Tipo di memoria tampone                              | Unregistered (unbuffered) | Profilo SPD                                        | ✓            |
| ECC on-die                                           | ✓                         | Programmazione con tensione di alimentazione (VPP) | 1,8 V        |
| Latenza CAS                                          | 46                        | Colore del prodotto                                | Nero, Verde  |
| RAM installata *                                     | 16 GB                     | Placcato piombo                                    | Oro          |
| Configurazione della memoria (moduli x dimensione) * | 1 x 16 GB                 | JEDEC standard                                     | ✓            |
| Tipo di RAM *                                        | DDR5                      | Condizioni ambientali                              |              |
| Componente per *                                     | Server                    | Intervallo temperatura di funzionamento            | 0 - 95 °C    |
| Fattore di forma memoria *                           | 262-pin SO-DIMM           | Intervallo di temperatura                          | -55 - 100 °C |
| Data Integrity Check (verifica integrità dati) *     | ✓                         | Dettagli tecnici                                   |              |
| Classifica di memoria                                | 1                         | Certificati di conformità                          | RoHS         |
| Voltaggio della memoria                              | 1.1 V                     | Sostenibilità                                      |              |
| Configurazione moduli                                | 2048M x 72                | Conformità alla sostenibilità                      | ✓            |
| Tempo di ciclo                                       | 48 ns                     | Non contiene                                       | Alogena      |
| Tempo di ciclo refresh                               | 295 ns                    | Dimensioni e peso                                  |              |
| Tempo attivo                                         | 32 ns                     | Larghezza                                          | 69,6 mm      |
| Tempo di precarica della riga (TRP)                  | 16                        | Profondità                                         | 3,7 mm       |
|                                                      |                           | Altezza                                            | 31,2 mm      |
